

Heffalump

This is a nice simple model, made out of 2 squares of paper. It's so easy, even Pooh could make it! The squares may be either the same colour both sides, or coloured one side, white the other. If white one side, start with the colour side up.

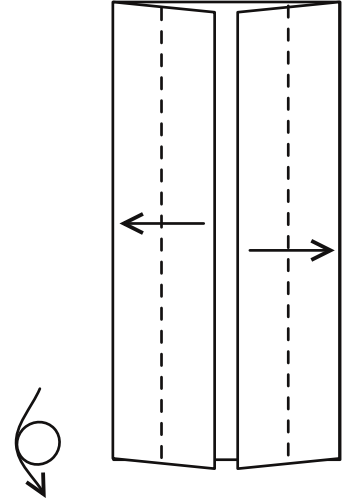

(1) Crease and unfold the centre lines vertically and horizontally

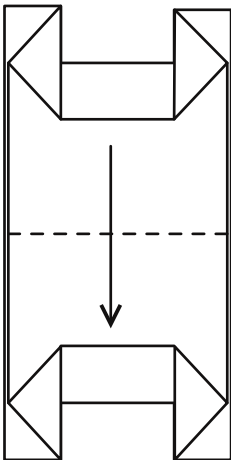

(2) Valley in both sides to the centre

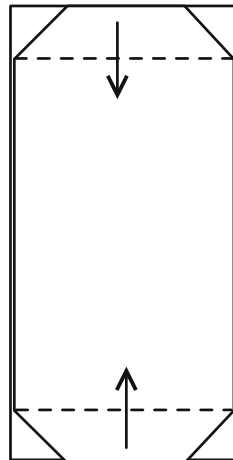

(3) Valley flaps back out to side edges. Turn model over.

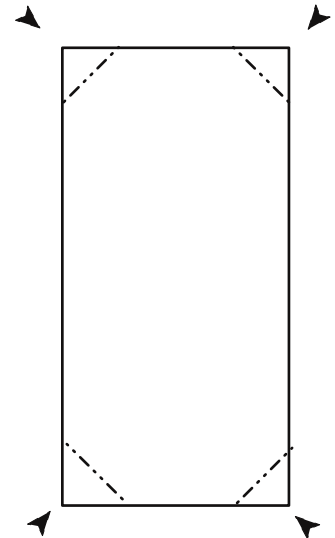

(6) Fold the model in half, top to bottom.

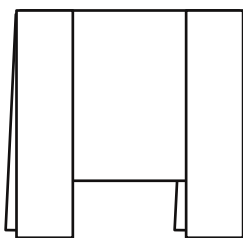

(5) Fold middle portion inwards at top & bottom - this opens out the push-in squashes made in previous step.

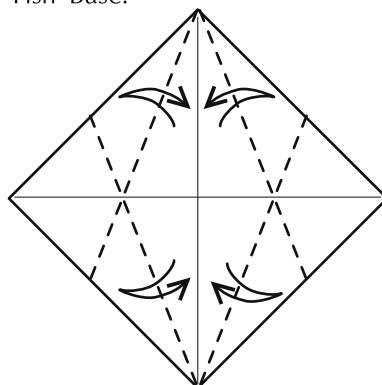

(4) Push in each corner

(7) Body & legs completed.

(8) For the head & tail use the other square. Crease both diagonals, then crease as for a Fish Base.

(9) Fold in small amount at side corners.
