

Mr Smiley

Start with a square of paper, white one side, coloured the other. For a coloured face, start with the white side up. Make pinch marks at 1/4 points on vertical crease.

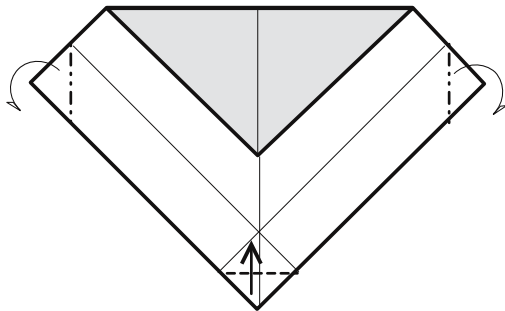

(1) Valley point X down to point Y, which is midway between 1/4 pinches

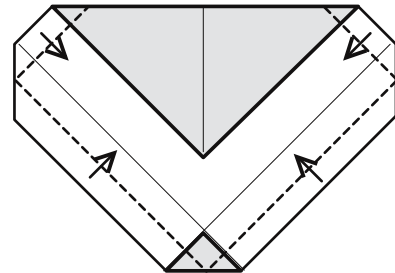

(2) Valley outside edges to edge of coloured area & crease as shown

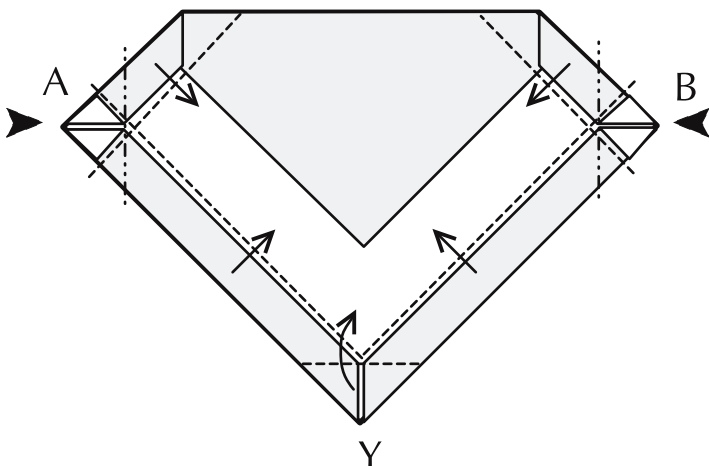

(3) Mountain behind side corners. Valley up bottom corner.

(4) Valley in lower edges to existing creases, & top edges to match.

(5) Firstly, valley in corner Y, then valley in the other sides, making squashes at the side corners, A & B.

(6) Open out & flatten bottom point. Fold behind tip of centre flap.
