

# Mr Smiley - 2

(7) Valley bottom edge upwards, locking small triangular flaps under side flaps. See detail on next diagram for each eye.

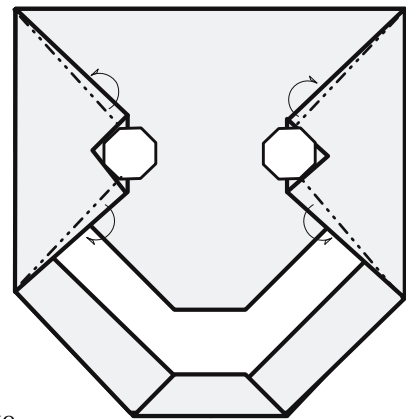

(8) Round off corners of square to shape the eye. Repeat with other eye.

(9) Pleat each side inwards, leaving eyes on top.

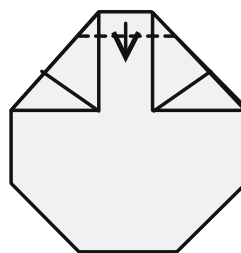

(10) Fold behind a small amount above & below each eye. This helps to lock the eyes in place.

(11a) Fold in top edge

(11) Round off eye area. Mountain fold behind top corners, to original centre crease - see extra diagram. Turn over.

(12) Turn back over for completed Mr Smiley. Keep folding, keep smiling!
